

ENVIRONMENTAL ANALYSIS

TOP PRODUCTS FOR YOUR LAB

TH.GEYER
SUPPLYING YOUR IDEAS

A COMPLETE RANGE OF LABORATORY SUPPLIES FOR THE MOST DEMANDING REQUIREMENTS IN ENVIRONMENTAL ANALYSIS

The environment is a complex and sensitive system, the protection of which is governed by a wide range of legal requirements. As professionals in environmental analysis, you play a key role in ensuring compliance with legal requirements, upholding environmental standards, and generating reliable data. Consequently, you have high expectations for reliable laboratory equipment, precise measuring and analytical instruments, and the continuous availability of consumables and chemicals.

Th. Geyer is your one-stop shop for all your environmental analysis needs, providing you with everything you require. Through us, you have access to all leading manufacturers and brands, a variety of ordering options – online or in person with your field sales representatives – and consulting and services. Because we understand laboratories – and that applies to our solutions for all your environmental analysis needs as well.
