## INSPIRING CHICKEN

The global consumption of chicken meat is increasing and the market will continue to grow in the coming years. As consumers consider a healthy lifestyle to be attractive and important, Symrise offers solutions that support the lifestyle and values of the conscious consumer. Food manufacturers need to adapt quickly to offer consumers with recognizable natural, sustainable, traceable and nutritious product solutions.

With the global expertise inspiring chicken™ is Symrise one massive step ahead. It shows the expertise in flavour creations, technological understanding as well as market and consumer insights. The comprehensive portfolio of natural and non-natural chicken solutions includes a wide range from high-performing to organic suitable flavours over foodstuff solutions in various key tonalities - from roasted to fried to cooked/boiled and beyond.

These proven solutions are available in powder and liquid formats to meet the technical needs of all relevant culinary applications.

With the understanding of sensory and market needs, Symrise developed authentic and balanced flavour profiles with an outstanding performance at affordable costs. The inspiring chicken™ range meets religious, dietary and regulatory requirements in all key regions.
