

UV/IR-SPECTROSCOPY

Reproducibility and precision are essential in spectroscopy. Attention must be paid to the use of suitable solvents during sample preparation. The Spectro grade series from CHEMSOLUTE® is characterised by both high optical and chemical purity.

- high permeabilities
- extremely low values for water content, evaporation residue, acidity and alkalinity

LABSOLUTE® and CHEMSOLUTE® - your strong duo in analytics! Do you already know the cuvettes from LABSOLUTE® with the highest resistance to the solvents used in spectroscopy?

Th. Geyer – We know Lab

As a family business, we have been there for our customers for more than 130 years to support them in their demanding tasks in analytics, research and science.

Laboratories in industry, clinics, universities and colleges as well as private and public research institutions rely on our experience and ISO-certified quality when purchasing their laboratory supplies: from personal support to fast, secure delivery and important services, we reliably cover everything needed for complete laboratory equipment as a partner.

Th. Geyer Brands

Our Th. Geyer brand trio BIOSOLUTE®, LABSOLUTE® and CHEMSOLUTE® offers you attractive alternatives when it comes to life science products, consumables and laboratory chemicals.

CHEMSOLUTE®

The perfect selection of chemicals for your demanding laboratory tasks: First-class laboratory chemicals, reagents and solutions – the perfect solution for your laboratory.

Laboratory chemicals from A-Z, measuring solutions, indicator solutions, chromatography reagents and much more. You can order all of these conveniently in our **webshop**.
