

WATER SOLUTIONS

TOP-PRODUCTS FOR YOUR LABORATORY

TH.GEYER
SUPPLYING YOUR IDEAS

YOU ANALYSE – WE SUPPLY EVERYTHING YOU NEED

Water is a vital resource, the protection of which is comprehensively regulated by law. As experts in water analysis, you play a key role in ensuring compliance with regulations and maintaining standards. Consequently, your demands on laboratory equipment, the quality of measuring and analytical instruments, and the availability of consumables and chemicals are correspondingly high.

Th. Geyer is your one-stop shop for all your water analysis needs, providing everything you require. Through us, you have access to all leading manufacturers and brands, various ordering options – online or in person via your field service representatives – as well as advice and services. Because we know labs – and that applies to our solutions for your water analysis needs too.

LABORATORY ANALYSIS

- Photometric measuring instruments
- Thermal reactors/thermal blocks
- Chemicals and reagents
- Consumables
- Microbiology
- Maintenance services
- Portable instruments pH
- Conductivity
- Oxygen
- Turbidity

SAMPLING

- Stationary
- Mobile
- Explosion-proof
- Consumables

ONLINE MEASUREMENT TECHNOLOGY

- Analysers
- Probes
- Consumables
- Reagents
